

WELCOME TO THE TRAA

Dedication Today for Tomorrow

"For the enhancement, protection and promotion of a viable, multi-species fishery within the Thames River watershed."

DONATE & FUNDRAISE

Efforts are underway to raise the funds we need to continue many of the TRAA's most vital projects

About The TRAA

In the spring of 1986 the TRAA was formed by anglers concerned with the state of the fishery in the Thames River watershed, particularly the dwindling smallmouth bass population in the North Thames River.

The TRAA is not a fishing club, although most members are anglers and share fishing as a common interest. We are a "hands on" environmental group who likes to work at a grass roots level.

Brown Trout Release

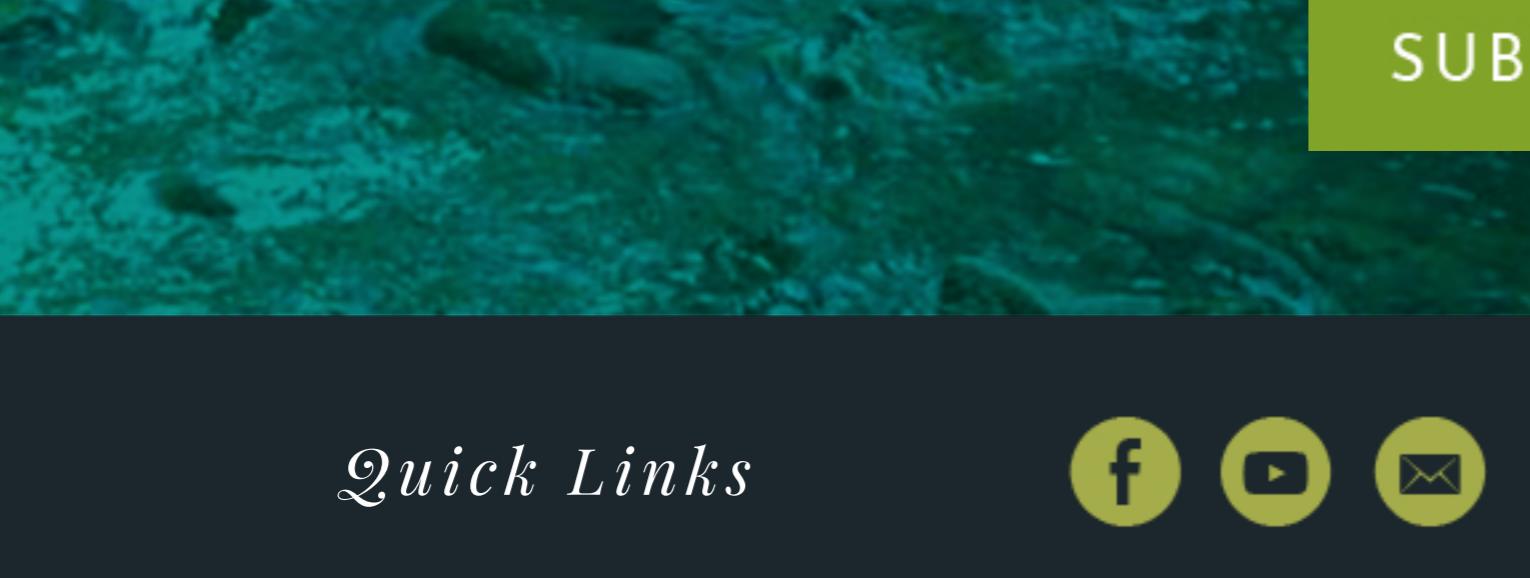

SATURDAY, MAY 4, 2019

We'll be heading out to try our luck every Thursday evening in July and August this summer. Keep an eye on your email for locations and dates as we organize them.

[PAST EVENTS](#)

Current Projects

You'll find us right in the water clearing obstructions from streams, measuring returning salmonids & taking scale samples for DNA analysis, education through trout hatchery tours & stream walks, being a voice for the Thames River watershed & its inhabitants and the list goes on.

TRAA Trout Hatchery

The TRAA Trout Hatchery began in the mid-1980's as an outdoor upwelling box located adjacent to Komoka Creek on private property. While it was a simple and rustic affair, the TRAA enjoyed incredible egg hatching and fry survivability rate.

Salmonid Monitoring

Here's an overview of what happened over a few weekends in the Spring of 2012 when TRAA members & personnel from the Upper Thames River Conservation Authority (UTRCA) waded in for Year 3 of our 5-year Salmonid Tagging and Monitoring Program.
